

No Steve – **JUST JOBS**

Senior Project Engineer Cold Chain (f/m/d)

Our client is a global leader in **automation** for sustainable and natural **packaging solutions** in the border triangle, in **Herleen and Venlo**.

Your responsibilities:

- Proactive contribution to the development of the new generation of products
- Investigation and Analysis of problems and bottlenecks based on a root-cause analysis and proactive continuous improvement
- Leading innovation projects
- Participation in design projects and customizing products
- Optimization of existing products
- Drawing up structured R&D plans, documentation and calculations
- Supervising and setting up product tests and the production of new products
- Maintaining regular contacts with both internal / external customers and suppliers

Your qualification:

- A technical bachelor's or master's degree, preferably in Mechanical Engineering, Industrial Engineering or equivalent.
- 8-10 years of relevant work experience in an independent R&D or engineering position within a technical work environment
- Technical lead for highly complicated Sales/NPI projects
- Managing projects successfully (resource management out of other departments)
- Ability to divide all engineering department project work within scope among team members and ensure completion by deadlines
- Ability to work with a wide range of stakeholders, from Marketing to Sales to Operations to R&D/Engineering colleagues around the globe
- Ability to handle unhappy senior (leadership) stakeholders incl. external customers
- A driven personality who persists even when it becomes difficult
- Good verbal & written communication skills in English and German (additional languages such as Dutch are a plus)
- Willingness to travel (national and international)

Our offer:

- The possibility to make impact in a fast-growing stock listed company
- Interesting learning & development opportunities
- A competitive remuneration package (with room for growth)
- Travel expense allowance and flexibility to working from home
